

# What's going on in Wombat Class?

March 2022

## Our school trip...

As part of our Science topic on Animals Including Humans, we have visited South Angle Farm. It was a fantastic day and we saw pigs, alpacas, donkeys and goats in the fields and even got to feed some of them. We also learnt about rabbits and guinea pigs and played with a tortoise called Trixie.

## English...

We have used many books as a stimulus for our writing which are generated from The Power of Reading. We are just about to start Lila and the Secret of Rain which ties in nicely with our geography topic, that being, all about Kenya. We are continuing with phase 5 alternative sounds in Phonics and reading daily. Handwriting is coming on leaps and bounds! Keep it up everyone! We have had a focus on alliteration, noun phrases, exclamations and similes in Grammar lately and we are learning to consolidate this and apply it to our daily work.

## Maths...

We have been learning about Length and Height last week and this week, we are moving on to Weight/Mass which is always a fun topic!

## DT...

This half term, we are designing and deciding what to put in a fruit salad to take On Safari. We are also practicing the skills needed to prepare the fruit before making the finished product.

## PE...

For our Dance unit of work, we are fortunate enough to have Mrs Dawson and we are moving like Safari animals. Outside, we are learning all about Invasion Games.
